* No. 28.—The following resolutions of the Government of India are published:—

INDIAN PASSPORTS.

FOREWORD.

Bombay, the 26th November 1912.

By 1903-1904, in pursuance of the orders contained in the Resolutions of the Government of India in the Home Department, No. 2823-1912, dated the 24th December 1909, the Government of India in Council is pleased to issue the following instructions with regard to certificates of identity.

1. Every subject of India who contemplates proceeding out of India to foreign countries is strongly urged, before leaving, to furnish himself with an authoritative certificate of identity, in the form appended to this Foreword, signed by the head of the district (in a Presidency Town and in the town of Bangalore, the Commissioner of Police) in the case of residents of British India, and by the Political Officer in that of residents of Native States. In the case of a student the certificate should be signed by the head of the institution at which he is studying and countersigned by the District Officer (in a Presidency Town) and in the case of a Merchant, the Commissioner of Police or Political Officer as the case may be.

2. Appeals for assistance by destitute Indians who desire repatriation and by students who, owing to enhanced circumstances, are unable to complete their course of education abroad, should be dealt with sympathetically where the parties are in a position to produce evidence of identity. The possession of a certificate of identity will be specially useful to persons of good family, as it may enable the Secretary of State to assist for their moral and other education.

Those who are destitute, however, of everything in countries where a passport will be necessary are advised to furnish themselves with such a document and before leaving India, in case of, or in addition to, a certificate of identity. It should be remembered that no person is entitled to a passport, as of right, on the ground that he is a British subject, and the production before authorities abroad of a certificate of identity, unless supplemented by documentary evidence of repatriation, is not sufficient to secure that a passport will be granted.

Amala, the 2nd August 1914.

No. 4987.—The following letter received from the Government of the East Africa Protectorate is published for general information:—

THE GOVERNMENT, NAIROBI,
 EAST AFRICA PROTECTORATE,
 June 27, 1914.

Sir,

I have the honour to inform you that the Government of the British East Africa Protectorate has recently had under consideration the desirability of enforcing more strictly the provisions of the Emigration Restriction Ordinance, 1904, and the Immigration Restriction Amendment Ordinance, 1913, copies of which are enclosed herewith.

6. Section 12 of the original ordinance provided that any person appearing to be a prohibited immigrant under section 4 (a)† might be permitted to enter the Protectorate on payment of a deposit according to nationality‡. In the scope of time this restriction was shown to be acting as a deterrent in the case of persons who might well be admitted to the country, and the amending Ordinance was promulgated whereby the Immigration Officer was empowered to accept security in lieu of the deposit.

8. In the great majority of cases arrangements for the security are made prior to embarkation, and in consequence such persons have hitherto been allowed to land in order that they may be given the opportunity of finding a surety. This convenience had to cease as it is itself objectionable inasmuch as the deposit provided by section 11 of the Ordinance of 1904 is payable before landing, and if this section is read together with section 4 (1) of the amending Ordinance of 1913, it is clear that the demand for security must also be complied with before landing.

4. The Government has therefore decided that all immigrants should either make the necessary deposit, or provide the security required, before leaving the ship or arrival in port. The strict enforcement of this regulation will take effect on from the 1st of September 1914 and I have the honour to request that steps may be taken to make this provision known to those districts from which immigrants to British East Africa usually arrive. Persons who cannot deposit the necessary sum or have failed to find the requisite security will after that date be sent back to India, and the Government of the Protectorate will not hold itself responsible for any expenditure there incurred.

I have the honour to be,

Sir,

Your most obedient servant,

C. C. BARNARD,
 City Secretary to the Government.

Local Governments and Administrations are requested to make the information contained in the letter as widely known as possible, particularly in places from which immigration to British East Africa is believed to be most common. Immigrants and groups should also be warned of the risks they run in proceeding to the Protectorate if they are unable, before landing, to deposit the sum of Rs. 50, or to comply with the demand for the requisite security in lieu of the deposit.

† The section prohibits the immigration of any person unless either a sum of deposit or some person who is ready to furnish a proper or a police bond.

‡ The deposit required from a native of India is Rs. 25.

INSTRUCTIONS TO CANDIDATES APPLICATING FOR THE UNIVERSITY PRIZE TO BE MADE IN MARCH AND APRIL 1922.

Candidates for University Foundation are required to observe the following instructions very carefully:—

1. Strict silence should be maintained in the examination room.

3. Candidates should take their places in the examination hall at least five minutes before the time fixed for opening the papers. Candidates presenting themselves more than half an hour after the appointed hour will not be admitted to the examination hall. Candidates who are undoubtedly suffering from infectious diseases of any kind will not be admitted.

Candidates should bring with them to the examination hall each day of the examination their hall tickets for inspection by the Chief Superintendent.

4. Candidates are prohibited from writing upon their hall tickets or question papers. Candidates are also prohibited from writing their names on any part of their answer books, but their register numbers should be written very distinctly on the outer cover of such. Failure to write their register numbers may involve the rejection of answer papers.

5. Candidates are not allowed to exceed the time assigned to each paper.

6. No candidate will be allowed to leave the examination room till the expiry of at least half an hour after a question paper has been given out; and no candidate who leaves the room during the period allotted for a paper will be allowed to return within that period.

7. Candidates are forbidden to ask questions of any kind during the examination. They are further forbidden to communicate with the examiners; should they do so, their answers will not be valued, and their conduct will be reported to the Syndicate for disciplinary action.

8. Candidates are not allowed the use of books of any kind (except as provided in rule 9). They are also prohibited from introducing into the examination room any book or portion of a book, note, manuscript, or paper of any description; from communicating with or copying from each other; and from communicating with any person outside the examination room. Any candidate found in the violation of these rules will be sent out of the room forthwith, and his conduct will be reported to the Syndicate. The use of slates in Latin and French examinations is not permitted except in students answering papers in Mathematics. The use of mathematical instruments whilst answering papers in Mathematics and in the Physical Sciences will be allowed. Such instruments will not be supplied by the University.

9. Clarke's Mathematics and Physical Tables will be supplied to candidates in groups (C) and (D) of the Intermediate, B.A. and B.Sc. Degree Examinations.

10. Candidates not required to provide themselves with their own pens. Candidates may bring into the examination hall their own ink-bottles. They must, however, use only black ink while answering their question papers.

11. Particular attention is requested in the instructions, regarding rough working and loose sheets of paper printed on the answer books. All rough working must be done on the left-hand page of the answer books themselves. No separate books for rough working will be supplied to candidates. Paper must not be detached from the answer books of candidates. If the ordinary answer books are found insufficient, additional books will be allowed and these should be securely fastened to the answer books.

12. As soon as candidates have finished writing their answers, and wish to give up their answer books, or at the end of the period permitted for each particular part of the examination, each should stand up to his place and remain standing until one of the superintendents has gone up to him and has removed his answer book from him.

13. Communications to the Registrar from candidates regarding information relating to the results of examinations will not receive attention until after the publication of the results on the first day of the session. Success or failure, however, will be communicated by telegram, if desired.

The hall tickets of candidates sitting for the examinations at Dublin will be ready for distribution at the Senate House five days before the date of such examination. Candidates sitting for the examinations at centres other than Dublin should apply to the Chief Superintendent of the respective centres for their hall tickets.

Candidates appearing at centres where they are not known must be prepared to satisfy the Chief Superintendent of such centres as to their identity.

THE COTTON CROP OF 1923-24—TIRUPUR DIVISION.

[On an average of the five years ending 1922-23, the area under cotton in the Madras Presidency has represented 12.8 per cent of the total area under sown crops in India.]

The area sown with cotton up to the end of November 1923 in this Presidency is estimated as 1,812,180 acres. This represents an increase of about 50 per cent over the estimate of 1,200,000 acres made in the corresponding date last year. The increase covers mainly in Bellary, Annapur, and Ponnaland and is due to the high price of cotton at sowing time and to the fact that cotton was sown in the place of rice and is now owing to the failure of rice in August and September.

The area under irrigated cotton is estimated at 120,000 acres against 115,000 acres last year, an increase of about 50 per cent. This is due to the fact that in the place of paddy in garden lands owing to the insufficient rainfall in the south-west monsoon period.

2. The early sown crops were affected by drought especially in September but have revived as a result of the rains in October and November. These rains, however, affected late sown crops adversely in some places. The seasonal fall for the Presidency works out to 83 per cent of the average.

3. The total yield is estimated at 2,48,000 bales against 208,000 bales last year. It is, however, too early to estimate this with any accuracy.

4. The estimated area and yield under the several varieties are given below. The distribution is not, however, based on adequate data—

THE RAINY CROP OF 1912-13—SECOND REPORT.

[On an average of the five years ending 1912-13, the area under paddy in the Madras Presidency has represented some 14.2 per cent of the total area under paddy in British India.]

The area sown with paddy up to the end of November 1912 is estimated at 3,145,840 acres. This represents a decrease of about 8 per cent below the estimate of 3,395,000 acres made on the corresponding date last year.

1. There is a decrease only in Visakhapatnam and in the West Coast where the season was favourable. Elsewhere, the decrease is fairly general and is due to the insufficient supply of water in the irrigated areas during the south-west monsoon period. The decrease is greatest in Rayachoti, Chittoor, Madras, Salem and Coimbatore.

The decrease is only temporary. As a result of good rains in October and November, tanks and other irrigation systems are full and sowings are proceeding vigorously. It is expected that the deficiency will be made by the time of the final forecast.

2. The rice crop has been harvested everywhere. Better yields have been reported from the West Coast where the season was favourable from the beginning. Elsewhere yields below normal have been generally reported owing to the drought in August and September.

The crops in Mysore towards the end of November would show damage to the standing crops and the general effect in Mysore of the drought on other districts also is a slight extent.

The seasonal factor for the Presidency works out to 86 per cent of the average.

THE INDUSTRY OF 1912-13—SECOND REPORT.

[On an average of the five years ending 1912-13, the area under indigo in the Madras Presidency has represented 51 per cent of the total area under indigo in British India.]

The area sown with indigo up to the end of November 1912 is estimated at 148,000 acres. This represents a decrease of 18 per cent below the area of 177,000 acres estimated on the corresponding

last year. The decrease is fairly general in most of the important crops owing to want of good sowing rains and to the lack of demand, as a result of the increasing competition of synthetic dyes.

2. The crop suffered from drought in August and September and yields below normal are reported. There is no reliable information as to the percentage of the crop actually manufactured into dye or applied to the land as green manure. But if the whole crop were manufactured into dye, the possible yield would be about 1,100 tons against 5,100 tons estimated on the corresponding date last year. The average yield would not be 92 per cent of the average.
